Hello Kyle,

Courses qualifying for the PCA requirements must have college credits/hours associated with the courses. Continuing education (CE) courses will not count towards the PCA requirements. Unfortunately, the courses taken through the International Society of Arboriculture will not count. DPR has an approved PCA college course list on the website. I am including a link to the list below.

Approved PCA course list:

Please let us know if you have any further questions.

Thank you,

**EXTERNAL:**

Hello,

I was wondering if I can receive any credit for these courses or similar that were taken through the International Society of Arboriculture. I have taken 9 of these courses and was curious if I can receive partial or full units for the classes. I am an ISA Certified Arborist.

Thanks,

Kyle Herron
